The Four Archangels

 Sufi Centrum Den Haag

Anna Paulownastraat 78, 2518 BJ Den Haag

Join us for an evening lecture exploring the Tricosm of the universe, where angelic and imaginal beings collaborate in the divine flow of light, life, and love. We will peer into the natures of the four archangels — Mika'il, Israfil, Azra'il, and Jibra'il — and learn how to invoke and recognize their presence within and around us.

 **Saturday August 23 – Sunday August 24, 2025**

Night, Dawn, and the Body of Light

 A Sufi Retreat in Murad Hasil

Zuidduinseweg 5, 2225 JS, Katwijk aan Zee

During our weekend retreat we shall delve into the mystical symbolism of light, darkness, and color. We will explore how the Earth's rotations —both on its axis and around the sun— stimulate different states of the soul, and how the awakening of the soul manifests through a spectrum of colored lights. Together, we will also plumb the depths of darkness to uncover a hidden luminosity that reveals the richness of existence.
